1 POLICY

1. Years I, II and III:

- a. Students are eligible to advance to a higher year of study when all components of the preceding year are successfully completed, or when, at the discretion of the Student Promotion Committee, arrangements are made to allow for completion of a failed course(s).
- b. A student enrolled in Year I, II or III must pass the end-of-year OSCE in order to proceed to the subsequent year. Students have a maximum of two opportunities to sit the OSCE, the first examination and one supplemental.
- c. A student enrolled in Year I, II, or III who, after supplemental privileges, fails a course(s) and whose post-supplemental yearly GPA is less than 1.70 will be considered to have failed the year and will be withdrawn from the program.

2. Year IV:

- a. A student enrolled in Year IV must have passed all courses, all components of the clinic exit examination, and have a minimum cumulative GPA of 2.00 in order to be eligible to graduate.
 - b. The satisfactory completion of Year IV includes all quantitative and qualitative requirements of CE 4405.
3. Students who, for any reason, interrupt their full-time study, will be subject to additional requirements to ensure maintenance of clinical skills.

2 PURPOSE

To outline the academic benchmarks by which students may progress through the degree program.

3 SCOPE

Undergraduate students.

4 INFORMATION AND COMPLIANCE PLANS (not a comprehensive list)

- Postsecondary Education Quality Assessment Board (PEQAB) Handbook for Private Organizations

5 RELATED POLICIES (not a comprehensive list)

- Academic Accommodation for Students with Disabilities
- Academic Standing and Status
- Grades
- Graduation
- Leave of Absence
- Part-time Student
- Program Completion – Undergraduate
- Withdrawal and Refund

6 DEFINITIONS

The OSCE (Objective Structured Clinical Examination) is a comprehensive clinically based assessment that draws upon material taught up to that point in the curriculum. The OSCE is designed to assess a student's overall preparedness for entry into the next year of study, and students must successfully complete the examination before proceeding further in the program. The OSCE may be administered as a stand-alone examination, or within the curriculum of a specific course.

-----**END OF POLICY**-----

7 PROCEDURES

1. Years I, II and III

- a. A student enrolled in Year I, II or III who, after supplemental privileges, fails a course(s) will have their circumstances reviewed by the Student Promotion Committee (see Appendix A).
- b. The Student Promotion Committee will consider the student's past academic performance, any exceptional circumstances and the course content and weighting of the failed course(s).

- c. The Student Promotion Committee will recommend to the Vice President, Academic, the Dean, Clinics and the Registrar whether the student should remain in the program and what steps must be taken before the student may continue in the program. Such steps will be provided to the student in writing.

2. Year IV

- a. A student enrolled in Year IV who, after supplemental privileges, fails to pass any component of CE4405 or other Year IV course will have their circumstances reviewed by the Student Promotion Committee to determine eligibility for graduation.
- b. The Student Promotion Committee will consider the student's past academic performance, any untoward circumstances, and the course content and weighting of the failed course(s). The Student Promotion Committee will recommend to the Vice President, Academic, the Dean, Clinics and the Registrar what steps must be taken for the student to be eligible to graduate. These steps will be communicated to the student in writing.

Terms of Reference

Attachment

UNDERGRADUATE STUDENT PROMOTION COMMITTEE (SPC)

TERMS OF REFERENCE

1. MANDATE

The Student Promotion Committee has responsibility for supporting and promoting student success by:

1. Monitoring and reviewing student academic progress as it relates to the requirements of the Doctor of Chiropractic program;
2. Developing and monitoring integrated advising plans for students at academic risk;
3. Reviewing the implementation of academic accommodations for students with disabilities;
4. Reviewing final academic status in each year of the program and making recommendations for promotion and graduation in accordance with academic policy, and the program requirements as outlined in the Academic Calendar; and
5. Annually reviewing and analyzing student progress data to identify performance trends and opportunities to enhance student engagement, and presenting such to various institutional stakeholders.

2. MEMBERSHIP (7 voting members)

Chair: Director, Student Affairs (votes only if there is a tie)

Voting Members:

1. Director of Education, Year I
2. Director of Education, Year II
3. Director of Education, Year III
4. Two Directors of Clinical Education and Patient Care
5. Student Success Counsellor
6. Student Success Advisor

Non-voting Members:

7. Registrar
8. Vice President, Academic
9. Dean, Clinics

Guests:

Other members of the institution (faculty, staff, students) may be invited to participate in committee meetings to discuss aggregate data and trend analysis. Discussion and review of individual student performance data may only occur with official members of the committee.

3. RESPONSIBILITIES

1. In preparation for each meeting, the Directors of Education and the Directors of Clinical Education and Patient Care will provide updated academic progress data for students in their associated year of the program. Such data includes, but is not limited to, course grades to date and outcomes on examinations. It is imperative that faculty submit examination results within two weeks of the examination's administration, per the Grades policy, to ensure that the Directors can assess the necessary data for review.
2. The Committee reviews the status of each student identified as being at academic risk and determines the best approach for advising and intervention, depending on the student's needs and the person who is best positioned to provide advising. Typically, students who have failed two or fewer examinations will be invited to meet with the Director of Education, while students with three or more examination failures will be invited to meet with the Student Success Advisor or the Student Success Counsellor. Where required,

the development, implementation and monitoring of an advising/success plan will be mutually agreed upon by the student and the associated advisor.

3. The Student Success Advisor oversees and monitors the repository of common data relating to the committee's work including progress data, as provided above, and notes from individual advising sessions with students, including details of agreed upon advising/success plans. Such a repository will be accessible only to committee members on a restricted access common drive, with data encrypted as necessary.
4. The Committee reviews the effectiveness of the implementation of academic accommodation plans for students with disabilities. The review of these plans is to ensure that the institution is fully and effectively meeting its legislated obligations in a manner that promotes inclusion and minimizes barriers to student success, and that students are fulfilling their obligations as outlined in associated academic policy. The individual academic progress of students with academic accommodations is not subject to review by the committee unless the student falls within the definition of being at academic risk. Should changes to accommodation plans or the manner in which they are implemented be recommended, such a recommendation will be undertaken by the Student Success Counsellor and subject to review in accordance with academic policy.
5. In cases where it is recommended that a student not be promoted in or graduate from the academic program, such a recommendation is made to the Registrar, the Vice President, Academic, and the Dean, Clinics. The decision is communicated to the student in accordance with the Academic Standing and Status Policy.
6. Annually, the committee undertakes a review of student progress data to explore and identify opportunities relating to curriculum and pedagogy.

Chair's Role and Responsibilities

The Chair is responsible for scheduling meetings, taking summary notes, and presenting recommendations regarding student promotion to the Registrar, Vice President, Academic and Dean, Clinics.

Definitions

A student at academic risk is a student who:

1. Has received an unsuccessful grade on two or more examinations in a given academic module;
2. Has received an unsuccessful final grade in two or more courses in a given academic year, or who may be likely to be unsuccessful in 20% or more of the credits in a given academic year;
3. Is on academic probation (cumulative GPA less than 2.0 but greater than 1.7); and
4. Is enrolled part-time.

Meetings

The Undergraduate Student Promotion Committee meets a minimum of four times per academic year:

1. During the third week following the completion of each of the four academic modules in the DC program, and
2. At other times to review exceptional matters at the request of the Vice President, Academic, the Dean, Clinics and the Registrar.

Procedures

Where possible, the committee should aim to establish consensus on recommendations that adversely impact a student's promotion or graduation. In the event that the committee does not reach consensus, the matter is referred to the Registrar, the Vice President, Academic and the Dean, Clinics for further consideration.

Record

Given the confidential nature of student grades, and the often sensitive nature surrounding the circumstances under which students fall into academic risk, the Committee's meetings are confidential and, as such, no detailed minutes are taken. Information cannot be shared by committee members with any other member of the

institutional community, unless otherwise deemed necessary by the Registrar, the Vice President, Academic, and the Dean, Clinics.

Summary notes are taken by the Director, Student Affairs, with a written recommendation for promotion or graduation where required.

The records are maintained and stored electronically in the Office of Student Services, in a confidential, password protected file on the Student Services drive.
